

Scott Muir MIC

Professional Scottish Climbing Athlete

Extreme Rock, Ice and Mixed Climber

Biography and Routes List

This will be one of the best Hard Sport Mixed and Climbing Route Resources in the World

Through-out my climbing career I have always tried to repeat as many routes as I can of my predecessors in order to grasp the history, ethics and feelings behind what has gone before me, without this basis of experience and journey through time it is impossible to direct and shape the future, making informed decisions and choices. In both Traditional Climbing, Sport Climbing and in Mountaineering, I have accumulated a major wealth of world climbing knowledge and experience. Some of this has been gained through an apprenticeship with some of the world's best known climbers, Bonington, Saunders, Zak et al.

Below you will find the complete list of my most significant world ascents to date. If you click on the highlighted route names a new page should open detailing each route with more photo's and comprehensive information on approaches, tips, tricks and location. This section is an ongoing project and as time permits I will keep adding photo's, scanned maps and topo's etc.

However, remember routes, locations and access changes like the wind so don't blame me if you get booted!

WORLD MIXED LIST

Every route is a First British Repeat apart from those originally climbed by * Stevie Haston

Only Jedi Mind Tricks Currently works as a link as an example of what's to come

Jedi Mind Tricks	M13 2 nd ascent	Colorado	4 th Redpoint
